Dear Engineering Friend:

We are pleased to introduce the American Society of Civil Engineer Florida Atlantic University Student Chapter and share with you information about relevant civil engineering activities that relate to the Civil Engineering profession and practice. The FAU Department of Civil, Environmental & Geotechnical Engineering (CEGE) has grown into a reputable program that is changing the landscape of the engineering profession in the South Florida Region. The Bachelor of Science in Civil Engineering received its second ABET accreditation for six more years! The ASCE FAU Student Chapter represents over 400 CEGE civil engineering students.

The ASCE FAU Chapter provides opportunities for students to learn how to communicate, socialize, lead, and work in a team driven professional engineering environment. The following are some of the opportunities that our organization provides for students:

- Exposure to ongoing engineering projects through tours of project sites.
- Attendance at the Palm Beach Branch of ASCE monthly meetings.
- Promote engineering and science careers at events in South Florida middle and high schools.
- Practice communication skills and ethical engineering practices.
- Professional Engineers as guest speakers, which bring real world experiences to students.

This year, we will participate in the 2010 ASCE Southeast Regional Conference, which will be in Auburn University in Alabama. At the conference, students compete in a variety of competitions with almost 27 Southeast universities. The Steel Bridge Competition and the Concrete Canoe Competition are the two major engineering design competitions, which are nationwide events and our largest hands-on project.

We need your technical and financial assistance to ensure the ASCE FAU Chapter success in the competitions. We want to invite your company to sponsor the ASCE FAU Chapter in the 2009-2010 academic year. Your support ensures the continuation of the ASCE FAU Chapter activities. For your convenience, we are sending the sponsorship information with this message. The ASCE FAU Chapter will be proud to have you as our sponsor. Your donation is a valuable contribution for us to achieve our goals.

We appreciate your favorable, prompt response to our request and we are looking forward to having you as a sponsor of the FAU ASCE Chapter. Please contact me with any questions by calling 561-236-5161 or by sending an email to [asce.fau@gmail.com](mailto:asce.fau@gmail.com).

Sincerely,

**Stefanie Battistini**
